CLEARFIL MAJESTY™ Flow

Description
- CLEARFIL MAJESTY™ Flow is a flowable, super-filled, light-cured, radiopaque, restorative composite resin.
- CLEARFIL MAJESTY™ Flow offers optimal consistency for controlled application and flowability.
- The right consistency is essential for the efficacy of a flowable composite. CLEARFIL MAJESTY™ Flow meets this demand sufficiently. With its material benefits and the new ergonomic and comfortable syringe, it truly satisfies the dentist.
- CLEARFIL MAJESTY™ Flow is characterized by very high filler loading (81 wt%) for exceptional strength and wear resistance, even for posterior restorations.

CLINICAL APPLICATIONS
- Direct restorations for anterior and posterior teeth (Class I – III, V cavities, cervical caries, root erosion)
- Cavity base / liner
- Intraroral repairs of fracture crowns / bridges / composite resin

Pic.1
The image of the cross section of a cavity covered with one layer of CLEARFIL MAJESTY™ Flow
Due to its flexible consistency, it will reach every area of the cavity and combine well with the natural tooth substance.

Pic.2
CLEARFIL MAJESTY™ Flow filled into a Class V cavity
It can be easily filled into such a cavity without mixing.

SYRINGE DESIGN
- The wing-shaped plunger injects the content paste till the last.
- The extra wide holder offers a good grip for easy and comfortable application.
- The structure has the least space between the syringe and needle. This can exhibit lowest incidences of voids.
**Performance**
- CLEARFIL MAJESTY™ Flow exhibits impressive physical properties, and maintain excellent esthetic qualities.
- It has the lowest polymerization shrinkage of the tested flowable composites.
- CLEARFIL MAJESTY™ Flow shows the highest flexural strength among the tested flowable composites.

**Liner Shrinkage**

**Flexural Strength**

**Flexural Modulus**

**RADIOPACITY**
- High radiopacity for accurate detection

**Easy and non-sticky dispensing**
- Precise flow and release formula

**SHADE GUIDE**
- Available in 9 shades: A1, A2, A3, A3.5, A4, B2, C3, C4 (Cervical) and D6
